MCADOO, POSSIBLE NOMINEE, HAS RAIL LABOR FOLLOWING

WOULD HAVE POWERFUL FRIENDS IN EVERY COMMUNITY.

IS DRY ADVOCATE

Expert on Taxation, Railroad Problems, Finance; Not Active Candidate.

This is the second of the series of nine articles by David Lawrence on presidential possibilities and impossibilities giving an appraisal of the political assets and liabilities of the men most talked of about today for the republican and democratic nominations. Mr. Lawrence has just finished a tour of the western part of the United States with President Harding and is now enroute to Europe to make a detailed survey of reconstruction problems. At the conclusion of this series, Mr. Lawrence's daily cables from Europe will begin exclusively in the Gazette.

Unquestionably the contest which will excite most interest in the next 13 months will be the selection of a democratic candidate for the presidency. Having interviewed democratic leaders in many parts of the country, it is undeniable that no single candidate stands out as in the lead. The fact is the democratic leaders in all parts of the country are in an acquisitive mood and they are carefully weighing the merits of various men whose names have been mentioned.

Perhaps the most remarkable thing about the present state of affairs in the democratic party is the fact that the man most talked of as a candidate at the last convention and his friends were unable to win the nomination chiefly because of the section-law relationship of Mr. McAdoo. Woodrow Wilson, who was considered a liability then, however, now is being talked of by his friends as an asset.

McAdoo and the War
The disposition of the country in 1920 was to forget as quickly as possible all that happened during the war. Consideration of any one who was connected with the war time administration during the war, when the presidency was met with the statement that the people were not inclined to look back. Would the selection of a man identified with war time restrictions revive the controversies which caused so much of the ill feeling that resulted in an overwhelming defeat of the democratic party in 1920? That is the greatest obstacle that the McAdoo movement has to overcome.

Curiously enough, however, the strength of McAdoo today is not his achievements during the war, when he had practical control of the finances of the United States government—the largest transactions ever carried on by a secretary of the treasury in its or any other country. The chief assets of Mr. McAdoo are the remarkable loyalty of his friends who have left no stone unturned since the last convention to make it possible for Mr. McAdoo to get delegates, and the amazing hold (Continued on page 10.)

SUES FOR RETURN OF \$100 HE LOANED

Action to recover \$100 loaned money was started in circuit court Saturday by P. A. Joyce, Janesville, against Carl F. Keller. The plaintiff alleges Keller on Dec. 12, 1931 borrowed \$100 from him and has not returned it. Joyce is represented by John Gross.

Salt on Tails Gives Way to Lye on Feet; Rodent's Wander Hence

Appleton.—The Pled Piper of Hamlin town has a rival in Best Moberg, dam tender here. He has discovered a new way to rid the river of rats.

Best, for many moons, while working on the dam, has continually interrupted in his endeavors by hundreds of altogether too friendly rats. In one day he said he has kicked as many as 100 rats into the Fox river.

At last he solved the problem. The Pled Piper of Appleton now throws lye on the boards about the dam. As the lye clings to the dampness feet of the creatures and begins to burn, rats lick their feet and sure death follows.

100 CHINESE ARE HELD FOR RANSOM AFTER NEW RAID

BANDIT GANG KILLS 2 IN ATTACK UPON TRAIN.

NO FOREIGNERS SOLDIERS SLAIN IN HOLDUP 15 MILES FROM CANTON; BOOTY IS \$50,000.

Hong Kong.—Bandits Saturday held up a train on the Canton-Kowloon railway, 15 miles from Canton, killing a Chinese military officer and one soldier, and carrying off more than 90 upper class Chinese, who are being held for ransom. Booty valued at \$50,000 also was taken.

NO FOREIGNERS TAKEN IN NEW BANDIT RAID

Canton.—No foreigners were among the passengers kidnaped by Chinese bandits when a train on the Canton-Kowloon railway was held up near here.

Two persons were killed and 100 Chinese are held for ransom.

TYPHOID OUTBREAK TRACED TO WELL

Six Cases in Rock County Road Camp Cause Issuance of State Wide Warning.

Chemical analysis of well water used by county employees working on the Evansville road construction job, by state officials disclosed the water was infected with typhoid germs. Six members of the gang contracted the disease.

County Highway Commissioner Charles Moore immediately ordered typhoid serum injections so as to prevent further spread of the disease.

Coming as a result of the outbreak in the Rock county camp, a warning that impure water and improper sewage facilities have increased typhoid cases in construction camps was issued by Dr. C. Harper, state health officer, Saturday to highway commissioners to insure that sanitary measures are enforced in the camps.

Dr. Harper in his communication says that typhoid cases are apt to result in camps where sewerage facilities are poor.

PLANE FALLS INTO HARBOR

New York.—A navy airplane, in charge of Lieut. Duffy, fell into New York harbor near Bay Ridge, Brooklyn, Saturday.

Lieut. Duffy and two navy men who were with him were rescued, uninjured.

GREEK REGIMENT ROUTED BY TURKS AT DARDANELLES

ATTEMPTED LANDING IS REPULSED AFTER HARD FIGHT.

MANY CASUALTIES

Grecian Ship Sunk by Turk Destroyer; Lausanne Gets Protest.

Sofia.—A report received Friday night from Constantinople says the Greeks attempted to land a regiment at Kara-burun, near the Dardanelles, and that the Turks repulsed them after severe fighting.

There were many casualties on both sides, the report says.

In the fighting a Turkish torpedo boat sank a Greek ship, according to the Constantinople report, and many were drowned.

The fighting took place Wednesday night, but the report did not reach here until late Friday.

It said the Greeks occupied the coast line and in the battle which ensued, many were killed and wounded on each side.

Finally the Greeks fled in panic to their boat which was fired upon by the torpedo boat Kemal Pasha, a large number of the Greeks going down with their vessel.

The Angora government, the report added, has telegraphed a protest to the near east conference at Lausanne.

It is known here that the Turkish frontier has been closed for the last three days.

GERMAN EDITOR IS GUILTY OF LIBEL

Jury Quickly Convicts Man Who Called Legion Men Bums and Tramps.

Chicago.—Arthur Lorenz, former editor of the German language newspaper, Staats-Zeitung, was found guilty of criminal libel late Friday for an editorial in which he called members of the American Legion "bums, tramps and vagabonds."

The verdict was returned before Judge Hugo Fann, after the jury had deliberated only twenty-nine minutes.

A motion for a new trial was made at once by Attorney William Gemmill, counsel for Lorenz. Judge Fann said he would hear the motion on July 2.

If he denied it at that time, he will impose sentence, which carries a penalty of one year in the county jail or \$500 fine, or both.

The trial had lasted for three days and was featured by the testimony of many legion officials.

In his closing arguments Special Prosecutor John K. Murphy said the editorial, printed in December, 1932, was "a direct attack on the American Legion."

PLAN BOOM FOR MCADOO

New York.—Detailed plans for launching a William G. McAdoo-for-president boom have been worked out at a dinner of a dozen of his most intimate friends here, the New York Evening Post said Saturday.

Although Mr. McAdoo has not formally announced his candidacy, his supporters were declared to be confident his hat would be in the ring.

ORDER MINER STRIKE OFF

Atlantic City, N. J.—John L. Lewin, international president of the United Mine Workers of America, has telegraphed the union leader of Glace Bay, Nova Scotia to call off the coal miners' strike there because it is a violation of the existing contract and contrary to the principles of the United Mine Workers.

BRONZE LOVEJOY MEMORIAL TABLET REACHES Y. M. C. A.

The bronze tablet to be hung at the Y. M. C. A. in honor of Allen Perry Lovejoy and his son, in whose names other members of the family have made the Allen Perry Lovejoy Memorial fund, has been received and will soon be hung. It is a handsome piece of about a foot by one and one half feet, with plain, unembellished lettering which says:

Dedicated to Allen Perry Lovejoy, 1826-1908 and Allen Perry Lovejoy Jr., 1892-1918. In whose lives the city and her welfare held high place and in whose names the Allen Perry Lovejoy Memorial Fund is administered for Janesville boys and girls.

JAPS AND BELGIUM READY TO ACCEPT 12-MILE LIMIT

GOVERNMENT'S INFORMAL RESPONSE HELD FAVORABLE.

RECIPROCAL PACT Search and Seizure Treaty Plan in Liquor Cases May Be Put Through.

Washington.—The Japanese and Belgian governments have indicated their willingness to talk over with Secretary of State Hughes the 12-mile shore limit treaties recently suggested by him.

Japanese Ambassador Hanhara conferred with Secretary Hughes. It is understood the proposed treaty was discussed. It was admitted at the state department that favorable response had been received from some of the governments addressed.

The treaties suggested by Secretary Hughes stipulate that any ship coming within twelve miles of our coasts may be seized by our enforcing agencies if suspected of smuggling, and a search made of its cargo. They provide reciprocally that American ships in turn may be seized and searched within the same limits by foreign governments making such treaties with the United States.

FIVE SOLONS IN SESSION

Madison.—The 1933 Wisconsin legislature, or rather a small part of it, held a short session, Friday afternoon, resolving committee reports and two veto messages from the governor. Six senators and three assemblymen attended the meetings of the respective houses.

One bill was passed by both houses, under suspension of the rules, providing that bills passed after July 1 should take immediate effect. This applies only to a few bills passed by the senate at its session early this week.

Both houses adjourned until next Tuesday. Adjournment sine die probably will be taken at that time.

Governor Elaine has made no announcement concerning the calling of a special session to act on educational appropriation bills left stranded when striking teachers adjourned in a deadlock over the surtax feature.

TRADED 3 CHILDREN FOR COW AND CALF

Cortland, N. Y.—Alleged to have traded his two daughter and a son for a horse, a cow and a calf, Lark Thornton of Truxton was convicted yesterday of improper guardianship before Judge Champlin in children's court.

George Shaw of Truxton, with whom it is charged, the barter was consummated, recently was released on \$100 bail on a charge of attacking the younger daughter.

The latter and her brother will be committed to the county home. The court ordered the father be compelled to pay for their care.

12-YEAR OLD LADS CHARGED WITH LARCENY

Charged with the theft of tools worth \$35 from the home of Edwin Lohry, 1424 North Vista avenue, Friday afternoon, two 12-year old Sixth and Seventh ward boys will be arraigned with their parents before Judge H. L. Maxwell, Tuesday. They are alleged to have stolen a brace, nine bits, a six-foot rule, two saws, a square, three hammers and a pair of pliers. Lohry said after he missed the tools he lay in hiding and caught the lads as they came back on a second trip. "An older brother of one of the lads was recently arrested in Janesville and Beloit on larceny charges."

BOLT KILLS TWO HORSES

Broadhead.—Two horses owned by John Bliss, Spring Grove farmer, were killed Friday when struck by lightning.

IT CAMPING PARTIES HERE FRIDAY NIGHT

Janesville's tourist camp is proving much more popular this summer than last and hundreds of campers have enjoyed its facilities the past few weeks. Friday night 17 tourist parties were seen, spending the night there and over the Fourth there were many more. Apparently the tourist epidemic is on the increase, with many Janesville motorists also being touched by the fever.

MRS. MILLER WILL RECOVER, BELIEF

Reports of Critical Condition of Shot-Gun Victim Denied by Doctor.

Despite reports to the contrary, the condition of Mrs. Minnie Miller, shot by her crazed husband, Alfred, April 8, who then killed himself, was said to be improved, Saturday, by Dr. Wayne Munn, who is attending the wounded woman. It was rumored that Mrs. Miller's condition was critical, but the story was branded as false by the physician.

Mrs. Miller was shot by her husband, an employee of the American Express Co., insane with the belief that his wife was not loyal to him after firing at Mrs. Miller, the man turned the gun on his head and killed himself. Mrs. Miller's arm was broken and she was taken to Mercy hospital. Although it was at first believed that amputation of her left arm would be necessary, said Dr. Munn, her complete recovery is now looked for.

Saturday marked the completion of her third month as a patient in Mercy hospital.

13 MILES OF NEW HIGHWAY IS OPEN

Work on the county highway construction jobs, with one exception, is progressing rapidly and all of the scheduled work is expected to be completed this summer.

Only a mile and a half of work remains to be done on the Janesville-Evansville road, Frank Lee, of the county highway commission, said Saturday. The road is open for a 13-mile stretch, and an additional mile and a half is practically completed, although not open for travel. The entire project, it is expected, will be finished by the end of July.

William Lathers, Beloit contractor in charge of construction on the mile and a half stretch between Madison and Milton Junction, will undoubtedly complete the job by the first of August.

The only road in which construction has been delayed is the Lake-side highway near Clinton. Due to difficulties in securing trucks and crushers the contractor, William Drew, has been delayed in the work. The work has also been held up by the long hauls necessary from the gravel pits to the work.

Work on the Avalon-Clinton job will be finished also by the first of the month. About a mile of resurfacing remains to be completed by the contractor, William McGavock, Beloit.

A gang of eight men is now employed by Peter Garey, Evansville, on highway 20 leading west out Pleasant street. About 1,500 feet of gravel grading was completed Saturday.

Wikom brothers awarded the Janesville-Avalon contract, will start work on Monday and Tuesday and the road will be open in about four or five weeks.

EXPANSE OF ERIE IS SCoured FOR MISSING FLYERS

WRECKAGE OF BAG SEEN ON WATER, STEAMER REPORTS.

FEAR PAIR DEAD

Failure to Trace Flight Over Land Strengthens Belief in Disaster.

Indianapolis.—Fear that the balloon, reported partially submerged and apparently unmanned, about 25 miles from Port Stanley, Ont., in Lake Erie was that in which Lieut. L. J. Roth and J. B. Anderson, naval aviators, left here July 4 in the national elimination race, was expressed by officials of the contest Saturday.

PLANES ARE ORDERED TO SEARCH FOR AERONAUTS

Washington.—The commanding officer of Selfridge field, at Mount Clemens, Mich., was ordered today by the army air service to help in the search for Lieut. Roth, missing navy balloonist, who has been lost over Lake Erie.

Major General Patrick, chief of the air service, sent this telegraphic order to the commanding officer, Selfridge field:

"Navy balloon 5698, pilot Lieut. Roth, reported down in Lake Erie at 9:30 last night, about 25 miles south of Port Stanley, Ont. Send 10 scouting air yacht or two DH's to Fort Stanley to assist in search and rescue work. Permission to fly over Canada obtained here."

Neither the army air service nor the navy bureau of aeronautics had any confirmation of the report that Lieut. Roth's balloon had fallen, but officers appeared to place some credence in the story because of the continued failure to trace the flight of the craft over land.

PLANE READY TO HOP OFF WITHIN HALF HOUR.

Mount Clemens, Mich.—Within 30 minutes after receiving word of instructions from the chief of the air service in Washington, a DH plane with two officers was ready to leave Selfridge field for Port Stanley, Ont., to assist in the search for Lieut. J. Roth and T. B. Nunn, naval aviators, believed to have been lost over Lake Erie.

BALLOON SIGHTED WITH BASKET SUBMERGED, REPORT

Cleveland, O.—The western reserve navigation company, operating the steamer Colonial between here and Port Stanley, Ontario, received an unconfirmed report Saturday that the Colonial sighted a balloon with basket submerged, drifting in Lake Erie last night. Company officials here said the Colonial reached Port Stanley this morning and was scheduled to leave there for Cleveland at 12 a. m. The steamer is not equipped with wireless and company officials have received no word from the captain.

BRITONS WIN IN DOUBLES

Wimbledon.—Randolph Lycett and L. A. Godfree of England, captured the world's titles in the men's doubles, defeating the Spaniards, Conde Gomar and Eduardo Flaquer, 6-3, 6-4, 6-2, 6-1. Sister Helen Frances and Miss Elizabeth Ryan, formerly of California, retained the women's doubles title by defeating the less experienced English team, Miss Joan W. Austin and Evelyn L. Colyer, 6-3, 6-1.

EKERN BEFORE RAIL HEARING

Washington.—After further argument Saturday, the Interstate Commerce commission concluded temporarily its hearings on principles involved in the federal valuation of railroads. H. L. Ekern, attorney general of Wisconsin, again urged the commission to find in its valuation data, the actual cost of railroad property to date, along with reproduction costs.

Byers Fined on Possession Count

Ernest Byers, arrested last week-end on a possession count, had his examination in municipal court Saturday, was held for trial and then decided to plead guilty. He was fined \$100 and costs, total of \$124.40, and the charge being disposed of. Those testifying against him were: Chief Charles Newman, District Attorney S. G. Dunwiddie, Patrolmen Charles Harmon and Leo Lennart.

38 N SECOND GROUP TO CAMP

Second Period at Rotarade Opens Monday—First Period Campers Return.

Second Rotarade camp will open Monday morning, the 38 boys leaving the Chamber of Commerce soon after 9 a. m. as possible. It will continue for ten days, through July 26. First period boys were to return late Saturday afternoon, hoping to arrive here about four p. m. and were to disband at the Chamber of Commerce.

Officials in charge ask that boys going Monday be at the Chamber on time, as medical examinations must be gone through with. The corps of leaders and directors at the camp will be the same as for the period now closing.

Boys who will go are: Griffith Beers, Hugh Biakely, Keith Bolton, Graham Butler, Dick Nichols, Robert Duller, Fredrick Faust, Harold Golsick, Howard Hagen, Leonard Juckett, Ben Meek, Novin Nichols, Robert Rutledge, Frederick Smith, Wesley Sorenson, William Waite, Clarence Ward, Vernon Weaver, Jack Whiffen, Raymond Whiting, Ray Wilcox, Carl Brockhaus, Donald Waulle, Frederick Jonas, Edwaine Fancher, Delmer and Elmer Carey, Frederick Panning, Ronald Smith, Robert Charles Palmer, L. Ellis, Gordon Lamb, William Tunstead, Neal Kuehne, George and John Brown, Arthur Purdy and Charles L. Holloway.

Johnston Is Champion

Wimbledon—William M. Johnston, No. 1, in the American lawn tennis ranking, is the new world's champion on grass courts. The diminutive San Franciscoan defeated Francis T. Hunter of New Rochelle, N. Y., ninth ranked American in the final of the Wimbledon tournament Saturday, 6-0, 6-3, 6-1.

Johnston outdressed and outscored Hunter in the first set, in which he did not allow him a single game. Hunter was more effective in the second set but Johnston recovered many of his opponent's intended placements while putting his own out of reach. Little Bly was playing with success and speed and keeping Hunter on the defensive at all times.

The King and Queen were more gaily dressed than in their wont. George wore a wide-brimmed Panama hat with a black and red striped band, and his consort, a lilac toque.

Randolph Lycett and Miss Elizabeth Ryan, both of England, won the world's tennis title in the mixed doubles by defeating L. E. Dwyer and Indian Davis cup star and Mrs. Sheppard-Barron of England, 6-4, 6-5.

"I SEE BY THE GAZETTE"

COMING EVENTS MONDAY, JULY 9.

Evening—School board meets—High school building, 8 p. m.
TO NAME TOBACCO POOL COMMITTEE;
SELL OLD PACK
Tobacco growers to represent the Janesville district, seven in number, will be named at a meeting of the Northern Wisconsin Co-operative Tobacco Growers' association in the Somerville warehouse Saturday evening. This committee will be named to represent this district and keep the pool officials and members informed of association activities.
A similar committee has been named for the Orfordville and Brodhead section.
About 200 cases of the 1918 pack, pooled at the old Spring Brook warehouse by local growers, was sold this week at good prices. There remains about 700 cases of the 1918 grades, above 18 inches, of 4-4-4 pack to be sold.
There will be at least five more weeks of work at the Janesville pool warehouse, according to Eber Arthur, local agent. More than 40,000 pounds of pool tobacco were grown around Edgerton was handled in the warehouse here. Nearly all the D-1 grade in Rock county has been packed and future work will be in grades D-2 and C-2 it was announced.
Lars Lein, Edgerton, will have charge of the meeting Saturday evening.

many newspapers, and was finally made into a picture directed by the author. The story is of the girl who enters the movies, makes success after a hard struggle and finds that Hollywood is not what it is painted. In fact, it is said that the picture shows all Hollywood people just as they are, sprouting wings. One of the most dramatic scenes in the picture is where the star sees the screening that has been taken of herself. The picture is one of the sensations for the past few months.
Gladys Walton is said to have been given a good vehicle in “The Town Scandal,” in which she plays the Broadway chorus girl, who shocks the Puritans at home by her actions. How she wins them all over to her views, especially the men, makes the picture rich in comedy.
“The Man from Glengarry” has always been a popular book, and now in pictures should please just as many. It has 6000 of which “The Town Scandal” is the best-known, and scenes in the northwest and of the lumber industry are unusually interesting.

AT THE MAJESTIC.
“The Call of the North” was one of Jack Holt's best pictures, and can be considered the one that gave him his fame. An exciting story is combined with excellent northern scenes and good acting of the cast, which includes, in addition to Holt, Madge Bellamy and Helen Ferguson, since be-

Securities Stage Recoveries After Pre-Holiday Drop

New York—Prices of securities received another sharp setback in the early part of this week's stock market but a recovery set in after the holiday and the general trend continued upward despite intermittent short-selling of the popular shares. A large amount of the short this week was reported to be for the account of small traders, who had become discouraged by the failure of the market to advance in response to a number of favorable news developments in the last two months. Foreign affairs, which had received but scant attention in the stock market in recent months, came to the fore again this week with the raising of the minimum discount rate by the bank of England from 3 to 4 per cent and the revival of interest in the reparations situation.

Several cuts in commodity prices, particularly lead, copper, rubber and Gulf Coast crude oil, contributed somewhat to the pessimistic sentiment. Decision of the Standard Oil company of California to raise the price of crude oil to the amounts specified in contracts with producing companies, after previously having accepted surplus stocks, had a sobering effect on the price of oil shares.

Railroad stocks made a belated response to the excellent current earnings and car loadings. The recovery was handicapped somewhat by the weakness of New Haven which was founded on the report of the joint New England railroad committee setting forth that a reorganization scheme involving an assessment of the common stock, was necessary to save that road from receivership.

The turn of half year found the steel industry operating at nearly a year's peak production. Large manufacturers report a shortage of common labor. Additional wage increases in some of the smaller mills were announced during the week, but there has been no indication of another increase by the United States Steel corporation and other big production producers but one could not be expected harvest time draws near.

Money rates softened a bit after the mid-year settlements had been completed. Wall Street brokers bidding five per cent and bankers holding out for 5 1/2.

The feature of the foreign exchange market was the establishment of a new record for the year by sterling, demand bills being quoted at \$4.54 1/2-16. Announcement of the raising of the discount rate started a rally in the foreign exchange market of the week. Most of the other principal European exchange also sold at or near their low rates of the year.

Securities Cheap on the Market

Wall Street—More support has come into the market from banking and other sources with the result that some improvement in the general tone and attitude has taken place. More confidence as to the future of prices exists and there is a disposition on the part of bankers to hold to the view that nothing more in the way of embarrassments is now to be expected, while values are regarded as being, in the case of most stocks, reasonably low. The situation has been relieved by the fact that had been felt by some who thought that conditions might get out of hand, due to the heavy liquidation which has been under way.

Whatever may have been the causes of the downward movement there can be little doubt that many of the principal securities now being traded in are low in price, if not

actual bargains, to put away until the market recovers its equilibrium. This might be true if the dividend situation were not as good as it is. Reports from practically all industries unite in revealing an improved earnings outlook, with every reason to expect maintenance of dividends or advances in them. There is a general consensus of opinion that business conditions are thoroughly sound and that such check as has been given to commodity prices has been of a nature to stabilize and confirm values rather than to impair them. Active summer and autumn business will go on, and such stocks as are now pronounced, must eventually put stocks back to quotations which will more truly represent their real value.

MEN NEVER GET ANYWHERE WITHOUT SOME CAPITAL AND WORK

Extravagance and needless spending for short-lived pleasures are the two things that strangle good opportunities and hog-tie ambitions more than all else except laziness.

How can a fellow harness a business opportunity without cash? How can ambitions be realized if a chap is chronically broke? Laziness kills everything!

One doesn't need to be a miser, but it takes capital to keep the wheels of any man's progress turning—to get it most of us must work and save reasonably and regularly.

The lad who starts a savings account in our bank with one dollar and adds to it each pay day is the one who will get some place. No better time than today.

Money is earned too hard to be swindled out of it

The Law Holds No Fear for Stock Swindlers

With returning prosperity, comes a new flock of "blue-sky" promotions to fleece the unwary investor.

The get-rich-quick schemers are springing up like mushrooms, overnight, and are using every conceivable form of deception in unloading their more or less worthless securities.

Our "blue-sky" laws, regulating the sale of stock, do not protect the public from loss because these crooks, who make a business of milking the small investor, scoff at laws against obtaining money under false pretenses and fraud of every kind.

Their offenses can never be proved until AFTER the scheme has busted and by that time the promoters have long since skipped the country, with the "sucker money," and are working greener fields.

Shun these financial pirates as you would a plague. Don't act hastily. Every honest stock salesman, offering a safe, legitimate investment, will give you ample time to investigate. He will be glad to have you

depressing Delaware and Hudson to 88 1/2, a new low since 1921, on unfavorable dividend rumors. The scanty supply of numerous shares desired by short interests for covering interests resulted in some brisk gains and confirmed impressions that such sections of the market had been temporarily oversold. Practically all of the active issues registered material gains. With Dupont rising 3 1/2, Canadian Pacific 3 1/2, Mack Truck 3 and Famous Players, Chandler Motors and a number of others 1 to 2 1/2 points. Delaware and Hudson rallied to 96 in the last half hour. The close was strong, sales approximating 275,000 shares.

Those who pay only \$5 down and \$5 a month on each share finish paying for their shares with the 19th payment—accumulated interest at 7% takes care of the 20th payment.

When paid for, each \$100 share begins paying its owner \$7 a year in cash dividends—\$1.75 every three months. These dividends are as dependable as bank interest.

It is a good way to save money; to get a business rate of interest on what you save; to buy safe income-producing shares that can be turned into cash quickly in case of need.

Other thousands have paid, and from day to day are paying, all cash for blocks of these shares. Among them are hundreds of the most substantial and conservative investors in Wisconsin—men and women who know the difference between safe and unsafe investments. Cash dividends on paid-up shares start from date of purchase. The price is the same—\$100 a share—to all buyers, whether you buy one share or a hundred and whether you pay all cash or buy on monthly payments.

Sale of these shares was approved by the Wisconsin Railroad Commission, which regulates the business of these Companies, to finance this year's growth of their income-producing public service properties.

GRAIN

Chicago Review.
Chicago—Possible black rust damage gave something of an advantage to the bull side of the wheat market during the early dealings. Besides, hedging sales of new wheat was light and Liverpool quotations were higher. Buying, however, lacked volume and a forecast of cooler weather northwest helped more or less to allay black rust fears. The opening, which varied from unchanged figures to 1/2 higher, with Sept. 11.03 1/2 to 1.05 1/2, and Dec. 11.06 1/2, was followed by slight general gains and then a moderate sag. Severity of offerings, July delivery in particular, tended to strengthen the corn market. After opening unchanged to 1/2 higher, Sept. 74 1/2 @ 74 3/4, the market scored an advance all around and then reacted somewhat. Oats were firmer with other cereals starting unchanged to 1/2 higher. It is a good way to save money; to get a business rate of interest on what you save; to buy safe income-producing shares that can be turned into cash quickly in case of need.

Other thousands have paid, and from day to day are paying, all cash for blocks of these shares. Among them are hundreds of the most substantial and conservative investors in Wisconsin—men and women who know the difference between safe and unsafe investments. Cash dividends on paid-up shares start from date of purchase. The price is the same—\$100 a share—to all buyers, whether you buy one share or a hundred and whether you pay all cash or buy on monthly payments.

Sale of these shares was approved by the Wisconsin Railroad Commission, which regulates the business of these Companies, to finance this year's growth of their income-producing public service properties.

You needn't fear the Wolf

when the door
is your own

"Keeping the wolf from the door" is the sole thought of many a man and his family. If you ask him or his good wife why there has been no effort to buy or build their own home, you will invariably get the reply, "It's been all we could do to keep the wolf from the door."

Now, the wolf of poverty and adversity is indeed to be feared by him who has no resources and who must go on paying rent whether he has employment of a paying character or not. It is not always possible to go year after year without an occasional spell of idleness.

But the big fact remains that **YOU NEEDN'T FEAR THE WOLF IF THE DOOR IS YOUR OWN.** In other words, the family which owns its own home and is not dependent on the whims or exactions of a landlord is never heard whining about "keeping the wolf from the door." The "wolf" never gets near enough to be a menace.

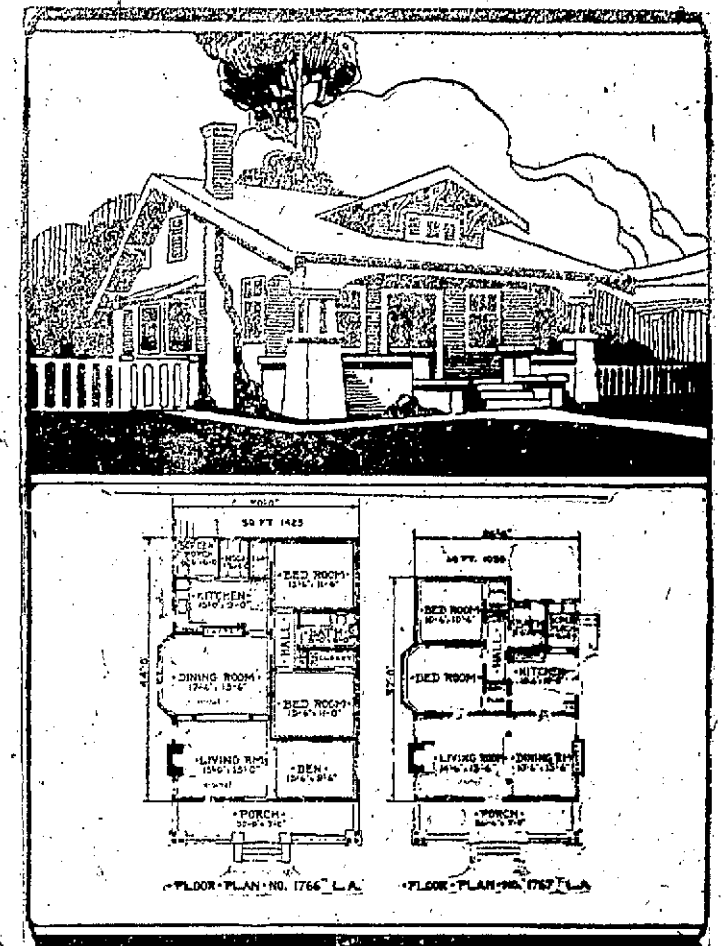

The greatest ills man is heir to are the troubles that never come. We live too much in the past when it comes to accomplishments and too much in the future as to possible dangers. **TURN ABOUT FACE**, man or woman. Try it the other way awhile. Tell about your past troubles if you must—although they were better forgotten. **BUT LOOK TO THE FUTURE FOR THE BIG THINGS YOU CAN AND INTEND TO DO.** And the first and most important of all these future accomplishments is the building of your own home.

Make it a real home, at that. With a garden for flowers in front and one for vegetables in the rear. With swings and a sand pile for the little tots and a radio set for the half-grown. With bathroom and every convenience that will appeal to the wife. With broad low windows for plenty of light and wide porches front and side and back for enjoying the magnificent air and views in this favored place. You can do it, too, if you are a wage earner making enough to pay rent. A little saved towards buying a lot, and you can finance the home proposition easily. There are many progressive citizens in this city who are just waiting to assist you if you show the proper spirit of enterprise.

A business **MAY** go to the wall, gems **MAY** be lost or stolen, but real estate endures. Even houses, though they may burn down, are security for an amount of insurance which will put you on your feet again.

And the proverbial "Wolf" never troubles the family securely housed in their own home. You may hear him howling along the highway, but he won't stop at your door—provided you own your home. Let our expert home designers advise you. Consult them today while life and ability are yours.

Here are the names of some enterprising firms and individuals in your city who are so interested in you that they are paying the expense of putting this page before you. They advise you to make the attempt at home owning and being your own landlord at once. They have also retained the services of competent home designers who will gladly give you valuable advice in making your plans. Address inquiries to "Home Building Editor," care this paper.

A home that you would be proud to own. Its graceful lines convey an impression of individuality and pretentiousness not usually found in a home so small.

The alternate floor plans show a variety of arrangements that should make it easy for you to choose one that would meet your needs. The exterior is painted white, with colonial green-stained roof.

Better homes are not a luxury of the present, but an investment for the future.

SOME OF THE RECENT IMPORTANT EVENTS OF THE WORLD TOLD IN PICTURES ON THIS PAGE

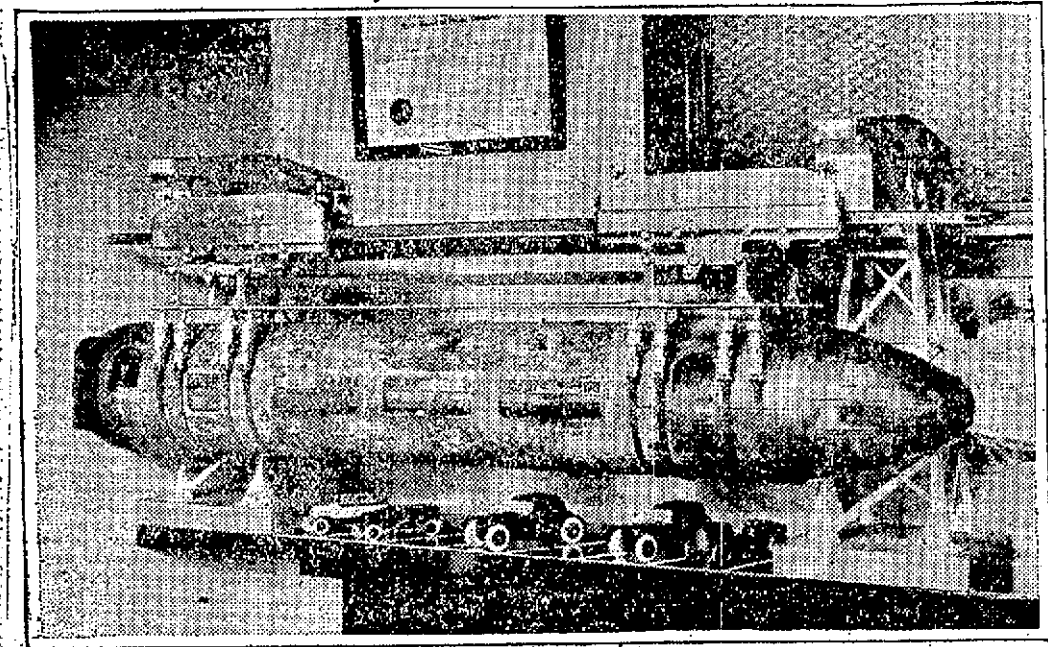

Photo shows a model of the overhead street car, with autos beneath, demonstrating how the whole system would clear the curb by allowing parking space in the center of the streets. The overhead street car hangs suspended from an overhead rail supported by standards as shown in the picture.

A torpedo-shaped overhead street car has been invented and demonstrated by Private Detective Fletcher E. Felt of Los Angeles and approved by the head of police traffic department of that city. It is the latest method to combat the ever-increasing street traffic. The railway companies of California have asked that the sales rights be withheld until their engineers can inspect the plans of the proposed system. The torpedo-shaped cars would be sixty feet in length and would travel on rails formed of two 15-inch I-beams suspended from T-shaped towers placed 60 feet apart. A loaded car would weigh approximately 18,000 pounds. The model has been successfully demonstrated and is causing a sensation in the railway world.

President Warren G. Harding in cowboy regalia, during western trip.

President Warren G. Harding has gratified another of his boyhood ambitions. During his trip west he donned the familiar cowboy chaps and rode an eighteen-carat "bronc," more or less gentle, but a "pesky pinto" just the same. He still insists that next to being president or an editor he'd rather "ride the range." Cowboys accompanied the president on his ride.

Above, Trotsky's Fourteenth division of Red army on parade in Moscow. Below, General Volkoff left, and Commissar Prokosh.

Leon Trotsky, Bolshevik war minister, is going right ahead with the training and equipping of the Red armies. The units stationed in Moscow now have been whipped into first class fighting organizations. The Fourteenth division has become one of the crack outfits of the Red army. While the soviets are protesting their peaceable intentions Trotsky is going ahead with his plans to make the Red war machine the most powerful in Europe. Even children are being adopted by army units and brought up in the military establishment.

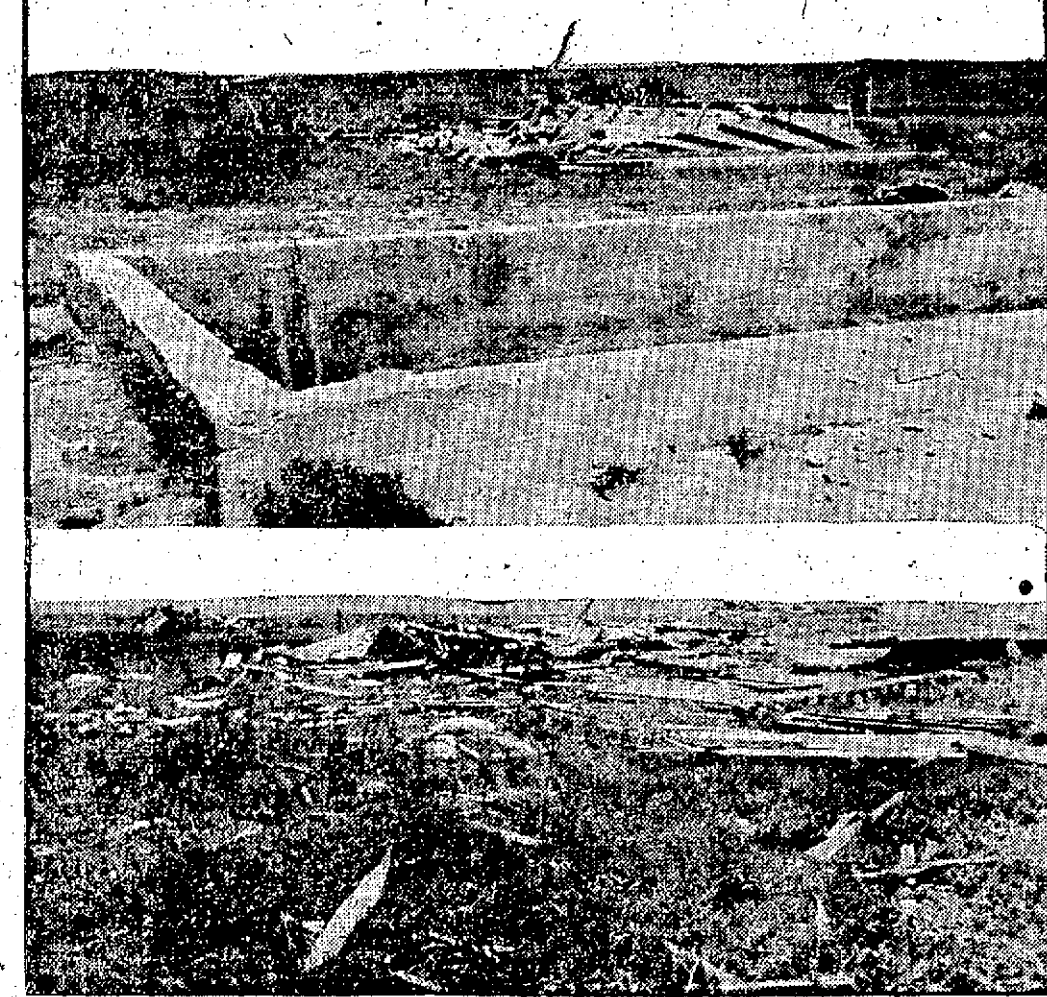

Lucky immigrants, who arrived before quotas were filled, rushing down gangplank at Ellis Island, which leads to "land of promise."

Hundreds of immigrants found a "pot of gold" on their arrival at Ellis Island recently. Others found only disappointment. The lucky ones were those to arrive before the quotas from their respective countries were filled. The others will be shipped back to their respective countries.

Emergency Engine Lubrication

OUTSIDE OF ACTUAL BREAKAGES of important parts, hardly any mechanical accident to a car is more disheartening to the trained operator than failure of the engine oil circulation, for this forebodes most serious possible damage to the power plant. The cessation of oil movement may be due merely to dirt holding the relief-valve open and thus preventing the development of the required pressure—a trouble readily removed by cleaning the valve—or it may be the result of air in the system, which can be eliminated by priming the pump with oil. A clogged strainer may be causing the trouble and require cleaning; but if a pipe is cracked or there is a bad obstruction in the system it may not prove practicable to do anything on the road. If operated very slowly and protected from hard work by a resort to the lower gears, an engine can be run for some little distance, without serious danger, although oil circulation has failed, but operating it thus should be resorted to only of necessity. Supplying oil freely at short intervals, through the priming cocks or plug holes, reduces the likelihood of cylinder scoring. An engine which has "circulating splash" lubrication, from troughs normally kept filled by the pump and into which the connecting-rod tips dip and distribute the oil to all bearing surfaces, can be kept in safe though smoky operation, if pump action fails, by supplying the crankcase with sufficient extra oil so that its level is abnormally high—high enough to keep the troughs submerged. Overlubrication will then take place, but no permanent damage will result. Everyone who has an engine with this kind of lubrication system should inform himself exactly how much oil to add to a "full" supply to raise the level by the required amount.

STEERING WHEEL JERKS AROUND

D. P. K. writes: (The steering wheel of my car bores me by jerking first in one direction and then in the other when the car is traversing streets with small uneven depressions in them. I have had the wheels aligned, without result, and the mechanic can't tell where the trouble is. What do you think is the matter? Can any of the bearings be broken?)

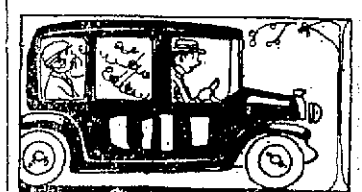

Answer: Our first thought is that the buffer-springs in the ball-ends of the steering-connection rod (drag-link) are not acting, as they are intended to, to cushion slight defective movements of the front wheels, so that they cannot reach the hand wheel. You better have the drag-link removed and inspected to see if these buffer springs are in proper condition and adjustment and free to act. Lubrication and adjustment may be the only thing needed, or you may require new springs. We are assuming that the front wheels are set practically parallel, but with a very slight gather, that they have the required amount of camber and that there is no serious amount of lost motion anywhere in the steering gear. We do not think any bearings are broken, but the knuckle bolts may have worn considerably in the steering knuckle, so that front-wheel camber has been reduced, which would

tend to exaggerate the defective effect of road irregularities upon the wheels.

OIL SMOKE ENTERS BODY SPACE

F. B. McK. writes: The engine of my car smokes considerably, apparently out of the breathers, pipes, and the smoke entering the body space, is very annoying. This trouble developed just after my having new piston rings fitted. Oil does not foul the spark plugs. What can you suggest?

Answer: It looks as though the fit of the rings was imperfect enough to allow considerable "blow-by" of hot gases past the

pistons into the crank-case, the effect of which is to vaporize some of the oil on the cylinder walls into smoke and send it out the breather. Possibly the rings will wear in and you will have less trouble after the engine has been run a while longer. If you are sure the smoke comes out of the breather opening and not from an exhaust leak somewhere, you can try closing the breather opening more tightly, perhaps by placing a sort of gasket under its cap, although this might cause some oil to be forced out through the engine bearings. We presume you are using a first-grade grade of oil. If the rings do not wear in to give a tighter wall contact, you may be forced to change them for others capable of giving better sealing effect.

HOT AIR WON'T SELL FANS—IT YELLS FOR 'EM!

BUT THE FACTS WILL SELL 'EM!

And the facts are that summer comfort is not a luxury, not a thing to be wished for, but a necessity, a thing to be insisted upon. And, also, a thing to be eas-ily had.

You are never uncomfortably warm when a good breeze blows, are you? You are never uncomfort-ably cool when a good breeze blows, are you? You see why, in your own in-terest, you should
